SILVER Plus With Defender

HWF-4925PHC

Whole House Water Filtration

SAFER Water For Your Family, SAFER Water For Your Home Affordable Chlorine Reduction

10.0-Micron Pre-Filter

Reduces larger particulates, contaminants to protect the carbon cartridges. The Defender capacity is 150,000* gallons. Consider replacing every 12-18 months.

Two 5.0 Micron Coconut Shell Catalytic Carbon Block Filters

Reduce physical contaminants such as sand, silt, turbidity (dirt), and organic particulates that may be present in municipal water. A proprietary blend of high-quality coconut shell-activated carbon block removes 99.95% of chlorine that damages pipes and makes drinking water smell and taste bad.

Polyphosphates - A Hard Water Solution

Polyphosphates add a hard water solution and scale inhibitor. Food-grade, FDA-approved polyphosphates treat and sequester hard water minerals such as calcium and magnesium which can scale and corrode plumbing systems and fixtures.

NSF Certified For Taste & Odor Reduction

NSF rated for chemical reduction up to 530,000 gallons* for a 2-cartridge system. Consider replacing cartridges every 72 months under normal water conditions and when used with the Defender Pre-Filter or Diamond Ultra-Filter.

*Under normal water conditions. For use on municipal water only. Not to be used on wells. Polyphosphates are recommended for water up to 20 grains per gallon of hardness.

- Does Not Waste Water
- Does Not Use Electricity
- Mounts on the wall, saves space
- No Head Programming
- 100% Recyclable

TREATS UP TO 530,000 GALLONS
DUAL SYSTEM
